RESPONSE, AND DISASTER PREVENTION

Dr. Jennie Perey Saxe  
U.S. E.P.A. Region III  
1650 Arch Street  
Philadelphia, PA 19103

Dear Dr. Saxe,

I have been contacted by a number of constituents regarding the site of the Tank Car Corporation of America at 1725 Walnut Street, Oreland, Pennsylvania 19075. I have been informed that the site's current tenant is Cheltenham Transportation LLC. It has been brought to my attention that both the Company and Springfield Township have filed injunctions against one another regarding the construction on the 1725 Walnut Street property. Springfield Township has requested that the company go through Land Development procedures before they conduct any building activity. This is due to the two foot cap placed over contaminants and other remediation efforts the EPA undertook in 2008 and concerns that any development will ruin the integrity of the work.

These constituents would like an explanation of exactly what was accomplished with the remediation effort, what restrictions the EPA may have placed on the property, and what entity would have jurisdiction to enforce any restrictions.

If you have any additional requirements, questions, or concerns please direct them to my District Representative, Andrew Colket, in my office at 940 West Sproul Road, Suite 202, Springfield, PA 19064. Andrew can also be reached by phone at (610) 690-7323, by fax at (610) 690-7329, or by e-mail at [Andrew.Colket@mail.house.gov](mailto:Andrew.Colket@mail.house.gov).

Thank you very much for your time and consideration in this matter

Sincerely,

Patrick Meehan  
Member of Congress

PM/AC
